USP Chapter 41 & 1251 Compliance in Pharmaceutical Weighing

Document ID: ACZ-14D56769 | ISO 9001:2015 & OIML R76 Certified

---

This technical whitepaper outlines compliance criteria for pharmaceutical balances under United States Pharmacopeia (USP) General Chapters 41 and 1251.

Key Highlights:
1. Repeatability determinations using calibrated Class E2 and F1 weights.
2. Minimum sample weight formula calculation (2000 x standard deviation / 0.10%).
3. Environmental vibration dampening protocols.
4. Routine balance checks versus annual calibration requirements.

Aczet CY and CM series analytical balances comply with all USP 41 repeatability criteria.
